

# ZOOLOGY

**Zoology** is the study of animals, ranging from microscopic invertebrates to the largest animals to ever live on the planet. An education in Zoology prepares you to start a career working in any of the broad levels of life, from working on the cellular level, to working on a specific species or individual animal, or all the way up to working on total ecosystems or the whole biosphere. Work can be as varied as doing research on topics such as animal behavior, cellular biology, or ecology, working in animal husbandry, being on the frontlines of conservation, or being the neighborhood veterinarian.

## Factors of success:

Engagement  
with the CSU  
Career Center

Internship or  
research  
involvement

On campus  
employment

GPA

## Additional resources:

- What can you do with a major in Zoology?

# CAREER CHECKLIST

## Year 1

- Go to the Career Center's drop-in hours or schedule an appointment
- Log into Handshake, the CSU Career Center's online location for on-campus jobs, internships, and careers. Find an on-campus job and work for 10+ hrs/week
- Join a student organization relevant to Zoology, like the Zoology Club

## Year 2

- Go to the Career Center to discuss job/internship search strategies, create a resume and write a cover letter and tips for interviewing
- Apply for undergraduate internships: <https://col.st/LHJiW>
- For more research opportunities, visit: <https://col.st/1tM1t>

## Year 3

- Run for a leadership role in a student organization
- Update your resume and/or cover letter for internships or on-campus jobs
- Learn about graduate school options: <https://col.st/zWA5n>

## Year 4+

- Present research at CSU
- Submit a poster presentation for a local conference
- Attend many networking events to meet employers
- Ask three professors and/or employers to be professional references

## Alums

- You may continue to use the Career Center for guidance! All services are still available to you at no cost for one year after graduation and for a small fee after that.
